\$155,820 U.S. Aid to Education In Madison

Expected Allocation Divide d According to Economic Deprivation

A \$155,820 expenditure of federal funds to improve reading and other instruction in the Madison county district is expected to include \$48,304 for Madison high school, \$62,338 for the Blair and Dunbar schools and \$45,187 for Madison junior high and the Louis Baer, Harris and St. Mary's schools.

Addressing Madison Rotarians at their weekly luncheon on Wednesday, School Supt. Wensei L. Brown said new services and structural materials are planned, in accordance with the 1965 U. S. Elementary Secondary Education Act.

Teaching of reading will receive special emphasis along with other basic subjects.

Must Spend by Aug. 30

Participation for the initial year requires writing of detailed proposals, federal approval and completion of expenditures by Aug. 30.

Due to the time element, Supt. Brown and Madison principals are making a concerted effort to complete the planning; the law was signed in August and procedural details became available to the school system in the third week of October.

Supt. Brown told the club that the administrative staff will need to be bolstered by the time planning begins for the second year of federal aid projects.

Based on allocation

The 31% allocation for the high school was stipulated by federal officials.

The decision to allocate 40% to the West Madison-North Venice area and 20% to the remaining schools was based on a thorough study of economic and social factors, the club was told. The federal law places emphasis on helping culturally deprived youngsters.

County School Supt. Wilbur R. L. Trimpe, who also addressed the Rotarians, explained that the types of federal education aid currently available, including 14 associated with the Economic Opportunity (anti-poverty) Act of 1964.

Asks Measures to Stay Active

Trimpe took the occasion to publicly urge Madison Mayor Stephen Maestas to remain on the Madison County Economic Opportunity Commission despite the hectic nature of his public sessions. Trimpe said such experienced leaders are needed because

Bi-State Bus Route To Pontoon Beach To Be Reinstated

Bi-State Transit Co. has agreed to resume next week a Madison through Friday bus schedule, between St. Louis and Pontoon Beach, village trustees were informed Friday evening. The board members also placed on first reading an ordinance providing for health regulations within the village limits.

Discussion on both proposals comprised the principal business transacted Friday, at the regular meeting of the village board, postponed due to the Thanksgiving holiday. All trustees and village officers were present, with the exception of Mayor Tony Jackson, who was reported ill.

Village President Thomas Staloff told the trustees that Bi-State Transit Co. will resume bus service to the village area, possibly starting next Monday.

Schedule for the Blair and Dunbar schools and \$45,187 for Madison junior high and the Louis Baer, Harris and St. Mary's schools.

Service was discontinued under a previously announced change in routing which consolidated services to Mitchell, Wood River and Alton, via Highway 203, Chain of Rocks road and Highway 111, by-passing the Pontoon Beach area.

According to Staloff, resumption of service to the village was ordered by Bi-State officials, after the firm was petitioned by the village board and several residents. Runs will be made along the regular McKinley line route, with scheduled stops at Venice, Madison, Pontoon and Nameeki roads, Madison avenue, downtown Granite City, through Madison and Venice to the McKinley Bridge.

New bus schedules for the Pontoon area, including three new routes, will be in effect starting at 6:34 a.m.; 8:45 a.m.; and 9:30 a.m. Return trips will leave St. Louis at 2:45 p.m.; 3:29 p.m.; and 5:10 p.m.

Health Law on 1st Reading

The board placed on first reading an ordinance establishing health regulations for the village.

Fines of up to \$100 are listed for each violation, with a convicted person also subject to the expense of abating the nuisance. Abatement by the sheriff or other proper officer is authorized if so ordered by a court.

Seven sections are included, covering sale of unwholesome food, unsanitary handling of food, pollution of water, depositing of garbage or dead animals, collection of filthy or unsanitary refuse, permitting buildings or places to remain in unhealthy condition and maintaining or creating an open drain, sewer or cesspool or failing to properly dispose of sewage or refuse.

Strong winds caused some damage locally

Strong winds during Friday night's storm caused minor damage in the Quad-Cities.

A storm window was reported blown out at 7:30 p.m. at 245 Edison avenue, and a tree was blown down at 8 p.m. Friday in the alley at the rear of 2250 Cleveland blvd. Street department employees were to remove it.

In Venice, a wire was blown down at 515 Main street at 9:30 p.m. Friday and a tree limb was blown across a power wire at Weaver and College streets at 2:15 a.m. Saturday.

The program consists of:

Santa Arrives Via Fire Truck And Parachute

(Pictures on Page 27.)

By fire truck and parachute Santa Claus arrived Friday for his annual pre-Christmas stay in the Quad-Cities.

He was greeted by thousands of youngsters along his parade route through Venice, Madison and Granite City, and another thousand watched him parachute from a plane for landing at Coolidge Junior high school.

The sky-diving Santa missed his wind-swept target area across from Belvedere Village shopping center by only a few hundred feet. He landed on the pavement of Nameeki road north of Fehling road, where his parachute caught on an auto being driven by Mrs. Arnold Fleishman and broke off the aerial.

Santa, who was properly armed with a crash helmet, was unhurt, and went to the shopping center to greet his admirers and distribute treats. He will continue his strolling visits at the shopping center on Friday evening and on Saturdays from noon to 5:30 p.m.

Cabin Headquarters

The downtown Santa will be at his cabin headquarters, 19th street and Edison avenue, from 8:30 to 8:30 p.m. Mondays through Thursdays, from noon to 8:30 p.m. on Fridays and from 10 a.m. to 6 p.m. on Saturdays.

The trek Friday morning through Venice, Madison and Granite City, with numerous stops to greet admiring youngsters, and to hear their Christmas wishes, ended shortly before noon at the newly refurbished log cabin headquarters.

Nearby at the Washington theatre, over 4000 youngsters were guests of Santa at the movies this evening. Santa is present for those youngsters wanting a picture taken while they are seated on Santa's knee.

Burglars, Car Thieves Busy On Holiday, During Weekend

Burglars and sneak thieves were busy on the Thanksgiving holiday as well as the rest of the weekend in a series of house entries, car thefts and other crimes.

At one home a burglar got \$147 worth of cameras and other items, while at a Granite City

tavern burglars took cigarettes and whisky. Three auto thefts were reported, while a thief who apparently prefers another mode of transportation stole several riding saddles.

A house burglary was reported at 10:40 p.m. Friday at the home of Kenneth Reeves, 208 Grand avenue, which was ransacked.

Taken were a 35-mm camera valued at \$100, a child's camera valued at \$2, a transistor radio valued at \$40, plus \$5 in change and bills and all the most from the refrigerator. Entry was gained by prying the basement window.

Diana Ozban, 1521 Garfield avenue, reported at 10:20 a.m. Friday that her home was ransacked after Friday afternoon. Entry was gained through the front window. Nothing was reported missing.

Burglary at Tavern

About 15 packs of cigarettes and 1 1/2 pints of assorted whisky were taken in a burglary at the Twilight tavern, 905 Niedeberg avenue, it was reported at 7:40 a.m. Friday. Entry was gained through a window on the east side of the building.

About \$1.25 in change from a can and five cigar lighters valued at \$1.25 were stolen in a burglary at the Delmar Shoppe, 232 street and Delmar avenue, which was reported at 8 p.m. Friday. Entry was gained through a basement window and by forcing a door to the shop.

The shooting occurred in the home of Mary Louise Best, 45 of 129 Slough road, where Mrs. G. A. Gardner, a representative of the county, was present at the time.

Elizabeth Morning of 1229 Market street, had gone about 10:30 p.m. to the home of Mrs. Elizabeth Brown, who police said also lives on Calhoun street in Venice.

The shooting occurred in the left front of the neck. She was taken to St. Elizabeth Hospital by police, and a short time later transferred to Jewell Hospital, St. Louis. A physician told police that the bullet had entered the neck and was lodged in her neck, and that Mrs. Gardner was in critical condition. She was reported improving today.

Election Called on Recreation Center-Rink

Vote Not Required But Park Officials Asking For Support by Public

A resolution was adopted by the Granite City park board Wednesday night, setting the stage for a Dec. 18 special election at which voters will decide on a proposed ice skating rink and recreation center to be built in Wilson Park.

Under new state legislation this year, the park board could have been authorized without a referendum about the project.

But President Barry Loman, Vice-President W. Milton Worthen and Commissioners Clarence Baumeister, Puffer Schuler and William Kozyak are proceeding with the election call in line with their policy of "keeping the park and recreation program close touch with the needs and wishes of the public."

Although leaving the final decision up to residents of the district, qualified voters need not be registered—the park board members indicated they are enthusiastic about the proposed 28,500-square-foot structure and the way it could be fitted into the recreation program.

Year-Round Recreational Use

"We plan to make it fully available to Granite City and Granite City organizations, and we are confident that it will be put to good use virtually every day in the year," President Loman commented.

A covered pavilion in the design has a seating capacity of 3500. Park officials noted that its 115,200-sq. ft. concrete surface would be suitable for concerts, square dances, gymnastics, theatrical presentations, sports exhibitions, flower shows, conventions, festivals, reunions and meetings of all kinds.

In cold weather, it will provide a place for ice skating, and in the summer it will be used for professional ice hockey teams, with weather shields and spectators on the four sides," Loman said.

"Varying in height from 15 to 60 feet, the roof will provide a place for ice skating, and at the same time will protect them from wind, rain and snow, so that they can enjoy an ideal place for ice skating every day."

Entry will be gained through a basement window and by forcing a door to the shop.

The shooting occurred in the home of Mary Louise Best, 45 of 129 Slough road, where Mrs. G. A. Gardner, a representative of the county, was present at the time.

Elizabeth Morning of 1229 Market street, had gone about 10:30 p.m. to the home of Mrs. Elizabeth Brown, who police said also lives on Calhoun street in Venice.

U. S. Food Stamp Program Starts Dec. 16

The Illinois Department of Public Aid and the U. S. Department of Agriculture have completed plans to start the Food Stamp Program in Madison county starting Dec. 16 and thereafter, public aid recipients—including persons on general assistance—and low income families not receiving public aid will be able to buy Food Stamps at the banks in the county which will include persons on the program.

Robert C. Gwin, superintendent of the county Department of Public Aid, said: "Persons participating in the Food Stamp program will receive bonus stamps in addition to their regular stamps. The bonus stamps will increase the purchasing power of the purchaser's food dollar by more than 30%."

The stamps can be used to purchase food at participating retail grocery stores for any food item except those listed as ineligible: liquor, tobacco, pet foods, paper goods and household supplies cannot be bought with stamps.

The Food Stamp program will replace the distribution of surplus commodities in Madison county. Commodity distribution will be discontinued when the November schedule has been completed. In October surplus commodities were distributed to approximately 7200 persons in Madison county.

Persons Eligible

All public aid recipients living in Madison county will be eligible except those living in nursing homes, sheltered care homes for the aged, commercial board and room arrangements, or persons who are given a food allowance for restaurant meals because they are unable to prepare their own meals.

Persons with low incomes who are not public aid recipients also may participate if they are determined to be eligible according to standards established by the Illinois Department of Public Aid. The income eligibility scale for non-assistance recipients ranges from a net income of \$139 per month for one person to \$490 for a family of ten. Also, liquid assets, cash on hand, savings, stocks and bonds cannot exceed \$400 for a single person or \$600 for a family group.

Households which are composed entirely of persons on general assistance will be certified by the office of the township supervisor of general assistance. All other types of households will be certified by the Madison county Department of Public Aid.

These will include persons on assistance to the aged, blind and disabled; aid to dependent children; non-assistance families eligible to participate; and general assistance recipients who are living with families who are recipients under one of the other public aid programs, or who are living with eligible non-assistance families.

Notice Cards Issued

The Department of Public Aid Springfield office has issued a notice card and pamphlet to recipients of public aid, to the aged, blind, and disabled, and aid to dependent children, announcing the start of the Food Stamp program and the discontinuance of commodity distribution.

Supplies of the notice card and pamphlet will be distributed to the general assistance offices by the Madison county Public Aid office.

Persons receiving aid to the medically indigent (administered by the township offices) and assistance to the medically indigent (administered by the Madison county department of public aid) are eligible for the Food Stamp program only if they qualify under the standards set for non-assistance families.

Appeal Ruling On Unemployment Funds to Strikers

A ruling by the Illinois Department of Labor holding that striking Union Starch & Refining Co. employees are eligible for unemployment compensation has been appealed to the Third District Circuit Court at Edwardsville.

The labor department ruling was handed down about a month ago, holding that striking employees could apply for compensation through the Illinois State Employment Service.

A company spokesman said today that on the basis of current payroll records, such payments would average about \$50 per week for the 420 members of the Oil, Chemical and Atomic Workers Local 7463 who have been on strike since last July 4.

Austin, president of the union, quoted a similar figure at the time of the ruling. He said the union's number of dependents was 550 per person per week, with amounts varying in accordance with the number of dependents of each applicant.

No Meetings

Meanwhile, the dispute between the company and union remained in deadlock today. No negotiation meetings have been scheduled, according to Bernard O'Keefe, U. S. Conciliator of the U. S. Mediation Service at St. Louis. The last meeting was held Friday, Nov. 19.

The deadlock involves a proposal by the company to discontinue two men and place four others on probation upon settlement of all other contract issues. The proposal also contained a new contract offer presented by the company to the union in the Nov. 19 meeting. The union, however, said it was not even consider the new contract proposal until that particular clause is removed.

A hearing of charges filed by the union against Gene Keitely, company vice-president, and Robert H. Hirsch, chief of security guards at the starch plant, alleging violation of the recently approved "anti-strikebreaker" ordinance is set for 1:30 p.m. Friday at St. Elizabeth's court.

The starch plant strike went into its 14th day today.

11 Undergo Surgery At Local Hospital

The following are recovering at St. Elizabeth Hospital from surgery which they underwent since Wednesday:

Clara McFady, 5107 Maryville road; Helen Giefer, Maryville; John Parker, Collinsville; William Sanders, 2901 Denver street; Leonard Lelenewski, 1621 Third street, Madison.

Sophie Mehan, 427 Lincoln ave.; Charles Hull, 827 1/2 S. Main street; Helen Brown, 2727 Buxton avenue; Helen Brown, 504 Fillmore; Venice Williams, 1111 S. 11th; Charles Lee, 1855 Edwardsville road, Madison.

Breaking down regulatory language into a number of sections, one by one, Cook charged that the ordinance contained a large amount of sentences "that no one can understand."

He said he believed that the supervisors, in acting on such a bill without giving serious thought to every phrase, were not establishing a law that was difficult for anyone, "even a lawyer," to understand.

Cook said unincorporated area tavern owners should have a voice in the terms of laws under which they must operate, and said the association wanted to be represented at discussions on revising the liquor control law.

Enforcement Difficult

Original intent of the revision had been to clarify the law and make it easier to enforce. The sheriff regarded the existing rule against after-hours drinking as difficult to enforce; patrons

Businessman Pays \$262 Meter Fines

A local businessman, Lenard Fleishman, paid \$262 in parking meter fines Friday for tickets issued by police for his auto and the car of a relative.

Police Chief Raymond Willard said a notice was sent to Fleishman more than a week ago for him to pay the fines for the 160 meter violations dating back several months.

The parking violation tickets are \$1 if paid within 24 hours after they are issued, and \$2 if payment is delayed. Because the time limit may be inconvenient in some cases, the increased amount usually is not assessed, police said.

The total is not a record. About three years ago another downtown businessman had piled up more than 200 outstanding tickets before paying them, and he now has his own parking lot.

Non-payment of the tickets is not a major or uncommon problem, however, police added. In some cases, drivers will get 10 or 15 before paying for them all at once.

Prison Riot Probe Is Continuing

Investigation into last week's riot at Menard Penitentiary, in which John William Stamps, 25, Granite City murderer, was identified as one of the principals in the riot.

Three guards were killed and six wounded in an attack by four of the ringleaders, including Stamps.

Max Frey, Menard warden, told the Press-Record that investigation into the riot will be completed before action against the ringleaders is determined and any comment by officials is made. Ross Randolph, director of the Illinois Department of Safety has been at the prison and taking part in the investigation since the riot occurred last Tuesday afternoon.

Stamps was sentenced in February 1961 to a 25-year prison term for the murder of Lorinda Oliver, 31, of Granite City, on Nov. 3, 1960, in Madison.

Stamps has a long record of arrests in the Quad-City area. He served 2 previous prison terms on a burglary charge. His first arrest dates back to 1935 when he was 15 years old, when he was picked up twice for investigation.

Contractor Halts Work on Chain of Rocks River Span

The new Chain of Rocks river bridge, scheduled for opening late next spring, has been shut down for an undetermined period by the Ruckman and Hansen Construction Co. of Fort Wayne, Ind.

The company gave no direct reason for the shut down except to say that it had been plagued by labor difficulties and other problems in construction of the bridge superstructure under contract with the Missouri State Highway Department.

Eugene Elberg, of Granite City, secretary-treasurer of the Madison County Carpenters District Council, said that when his group received their paychecks last week they were notified there would be no more work this winter. Elberg said the number of carpenters on the project varies, ranging up to 40 or 50 at peak. There were about 25 on the job when the shutdown notice was received, he said.

Robert Kronst, district engineer of the Illinois State Highway Department at French Village, said the cutoff of work on the river bridge came as Illinois Highway Department workers were putting the finishing touches on the twin bridges across the Chain of Rocks Canal. Only a few weeks work remains on the canal bridges which were to carry Route 270 across the canal onto the bridge spanning the Mississippi.

Kronst pointed out that all work to be done by the state on the river bridge was completed with construction of the substructure. Under the agreement between Missouri and Illinois, Missouri was to build the superstructure, including all top steel work, decking, railings, lighting and signs.

P. N. Ruckman, president of the construction firm, said about two months work remains on the bridge. All concrete decking has been poured, but curbing and parapet walls must be built and painting and signing is yet to be done, he pointed out.

Elberg said he was told by Ruckman that the shutdown was being ordered because of weather conditions, but added that "this can't be true, because other bridge projects are working."

John Layman, Missouri district highway engineer whose office is supervising the work, said the Ruckman and Hansen company will be penalized \$250 per day for every day the bridge remains uncompleted past the Nov. 15 construction date set in the contract. Ruckman said he was aware of the penalty but that a request has been made for an extension of the deadline because of the unusual problems we have had on this job. The job has encountered six work stoppages because of union difficulties.

Lost Large Sum

Ruckman said that he had lost "more than \$300,000 on the bridge job" to date, but refused to elaborate.

Layman, meanwhile, said he plans to call a meeting within the next week of the contractors and other interested parties to discuss the possibility of opening the completed westbound lanes of the bridge to emergency traffic, using the old Chain of Rocks bridge for eastbound traffic.

Kronst told the Press-Record that he is not certain such an idea would be practical. He said construction of a cross-over would be necessary. The matter had been suggested before, he said, "but just as a passing idea."

Kronst also pointed out that the delay in construction of the new bridge has been due principally to high water. The contractors, he explained, have been able to work only one month out of the last eight because cofferdams were flooded.

Mayors Hear Details Of Four Federal Acts

Four acts passed by Congress this year provide federal funds which are available to Illinois cities, the Southwestern Conference of Mayors was told at a dinner meeting at the Holiday Inn, East St. Louis, Wednesday night. Forty persons attended.

David Richmond, administrator of the office of the Illinois Department of Business and Economic Development in Herin, discussed the Technical Service Act, Housing and Urban Development Act, Farm Home Administration Act and Public Work and Economic Development Act.

The Technical Service Act was designed to gather and provide research material to businesses, now under way in Illinois, he said.

The Housing and Urban Development Act offers grants up to 75% to some counties for certain projects, including housing code enforcement, public works planning, water and sewer systems and community centers, Richmond said.

Grants also are available for land acquisition by communities for future needs and for urban beautification and mass transportation.

The FHA Act provides for grants and loans, primarily for rural areas and for water and sewage developments, he said.

The Public Work and Economic Development Act was designed to replace Area Redevelopment Administration programs, Richmond said, and 31 Illinois counties, already involved in ARA, are eligible for funds under the new act.

It provides grants and loans for public developments having a long-range economic impact on an area, including long-term employment.

Richmond said his department has divisions for state and local planning, water and sewer systems, tourism and export expansion.

Classes are being conducted by William Brandon of the Great Books Foundation, a non-profit educational organization, headquartered in Chicago. Participants include public and parochial school teachers, parents and their interested individuals.

Adult leaders taking the course are expected to head discussion groups composed of students from the fifth through 12th grade, who have read selections from the Great Books program. For the past 15 years, the Foundation has sponsored adult reader groups. Recently, because of great interest shown by teachers and other concerned adults, the junior program was initiated.

Emphasis in the program is

placed on "helping the youngster think for ones' self in a deeper and clearer manner, Sister Peter Damien added, the Junior Great Books series is designed to help develop in students such skills as reading more accurately, communicating ideas clearly and intelligently and listening to the opinions of others with respect and understanding.

Some of the reading selections discussed at the fifth and sixth grade level include portions of "Alice in Wonderland," "Aesop's Fables," "Dickens' "Christmas Carol," and "Kipling's "Jungle Book."

The former Miss Rieken was attired in a sheath gown of hand-clipped Chantilly lace styled with long sleeves, a Queen Anne neckline and a princess waistline. A mantle cathedral train, detachable, gave back interest. A circular headpiece of pearls and aurora borealis crystals secured a bouffant veil and the bride carried a bouquet of pink roses and stephanotis.

Floor-length dresses designed with azalea pink velvet bodices, long sleeves and empire waistlines were worn by the bridesmaids. Matching azalea satin bands at the waist secured oyster shell crepe skirts, and circular velvet petal headpieces held in place lampshade veils. Their flowers were cascades of pink carnations.

A reception was held in the church parlors directly after the ceremony, and the newlyweds left later for a tour of the southern states. They will be at home after Dec. 3 at 418 West Fourth street, Alton.

The bride was graduated from Civic Memorial high school in 1962 and from St. Luke's Hospital School of Nursing in 1965. She is presently employed at Alton State Hospital.

An obi bow at the back of the waist set off the short chapel train and a headpiece adorned with sequins and pearls held in place the bride's bouffant silk illusion veil. She held a bouquet of white orchids.

THE MADISON COUNTY SPORTSMAN

By DON HASTINGS
County Conservation Officer

Violations during the past month seem to be at an all-time high. I suppose it has something to do with the good weather we have been having.

To add to the problem, I was assigned to goose detail at Cairo for ten days and then on to deer detail in Gallatin county for four more days, keeping me out of the county for the entire two weeks prior to the rabbit and quail season.

Since the department has no extra men, and just one man to a county, the men needed to handle a heavy concentration of hunters such as at Ware and Horseshoe during goose season must come from some of the other counties. This duty is distributed around and this was my first year to have to go, it simply came at bad time but couldn't be helped.

The perennial problem here in the county reared its head early, in that there were a number of complaints on night rabbit hunting from autos. Over 25% of my arrests last year were for this offense and, even with fines of up to \$100, it still seems to persist.

Day hunting for rabbits during the week prior to the season was heavier than usual and was concentrated in the canal and river levees.

Prior to leaving I was able to make six early coaching arrests with the help of other wardens. Fines ranged from \$25 to \$50, with several to come to trial yet. During the weekend, Officer Lowery from Montgomery county came down in my absence and made three arrests near New

Douglas on early rabbit hunting, confiscating five rabbits.

Wholly unexpected was the number of duck hunting complaints on the Silver Lake at Highland. These included early shooting, harassing with a motorboat and too many mallards.

I say this was unexpected, as this normally is an area where you can expect good behavior and good sportsmen. I would hope it returns to normal quickly.

One bright spot was the absence of trouble at Horseshoe Lake at Granite City.

I would appreciate any assistance you might give me by calling on any violations immediately, regardless of the hour. Phone 696-1090. If you have not received an answer to a question or phoned while I was away, please call again.

P.E. Program to Begin at YMCA

An improved boys' physical fitness program will be offered at the YMCA, beginning Dec. 13, to members of the organization.

Boys will be offered athletic games, with individual coaching given in such sports as basketball, volleyball and soccer. Classes stressing the fundamentals of trampoline and recreational games also will be on the program.

Girls will be given instructions in tumbling, fundamentals of trampoline and recreational athletic games. Further information may be obtained from David Walker or Mike Jessee at the local Y.

Venice Hosts Valmeyer in Cage Tilt

Venice's Red Devils go after their second win of the young cage season tomorrow night when they host a powerful Valmeyer team. Game time is 8:15.

After beating Columbia 89-58 last week, the Red Devils face a team that Columbia beat in overtime. Valmeyer, 2-1, besides losing to Columbia, has beaten highly-rated New Athens and two other foes in basketball action this year.

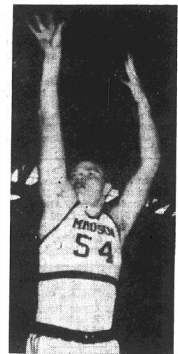

"We'll probably go with the same lineup," said coach Bill Ohlendorf. Venice is seeking its second straight MCM Conference championship this year. Neither Columbia nor Valmeyer is in that conference.

"As I said before the season, the toughest ball games are always the first couple, and when we get through them, we'll have the bugs worked out, I hope," he said.

Valmeyer has a good club. They've got a boy who's 6' 6" by the name of Fultz, they've got good size and they can shoot," he said.

When asked for his main worry about the Valmeyer club, Ohlendorf said that the squad plays quite a bit.

Game No. 2 on the Venice schedule could be a cliff-hanger, or a runaway with the Red Devils at the helm.

Gasparovic Wins Midget Division Soccer Playoff

Skip Gasparovic scored two goals and led the Gasparovic Agency soccer team to a 2-1 win over St. Elizabeth in the Midget Division of the YMCA Soccer playoffs yesterday.

Anthony Kozol scored St. Elizabeth's only goal. In the game Saturday, St. Elizabeth's beat Buzz's 2-1 to gain the final match pairings.

Gasparovic Agency will meet St. Elizabeth in the final game of the playoff series in the Bantam Division on Saturday, Dec. 4. St. Elizabeth downed Bricklayers Local 69, 1-0, and Gasparovic Agency edged Mitchell A.C. 1-0 in Saturday's action.

On Sunday, the two teams met and Gasparovic Agency, on a goal by Tommy Burns, edged St. Elizabeth 1-0.

At Fall Banquet

Calvin Dixon has averaged 7.0 points per game at his guest spot in Sanford-Brown's 0-2 record so far this year in the Great St. Louis College Conference.

Madison to Host Flyers In Opener

"Thump, thump, thump, bonk, thump, thump, thump, swishh."

"Our shooting has improved greatly during the past couple of days," said Madison head basketball coach Earl McClanahan as he looked at the Trojans' season fortunes.

"The first couple of weeks, you're always a bit sluggish, but after you get into that season, you start to come alive and look good," he added.

The Madison basketball season begins tomorrow night with a home game pitting Earl St. Louis against the Trojans at Madison.

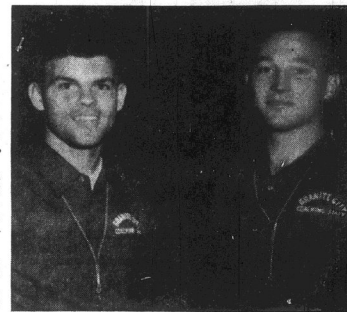

In preparation for the opening cage tilt, McClanahan has a group of hard-working players but, like some other schools, Madison lacks the real height needed to be completely successful.

"Size is always a problem with us. Right now, Paul Lusk is probably our biggest boy. He's 6'2," the Madison mentor said. The highlight of a so-so season last year was Madison's play in the regional playoffs. The Trojans advanced to the finals before losing to Collinsville, 76-62. Collinsville went on to win the state championship.

Three Returning Lettermen With three returning lettermen—Lusk, Ron Burt and Dale Turner—Madison's cage hopes seem up in the air.

We won't really know what we have until after the first ball game," McClanahan said. When asked who would be the toughest opponent that the Trojans would face, he said, "They're all

New Warrior Basketball Coaches

GC Hosts Waukegan, Riverview Mat Squads

A last-minute addition to the opening Granite City wrestling match on Dec. 3 has added more excitement to the Warrior's season schedule.

Riverview Gardens, Missouri state wrestling champions, will be included in the mat program that had Granite City hosting Waukegan for a dual meet in Granite City. The event will now be a triangular meet.

Granite City is the defending Illinois wrestling champion, while Waukegan finished third, two points behind the Warriors. Coach Bill "Red" Schmitt, who has compiled a 200-4 Missouri and downstate Illinois record in dual meets during his 16 years at the wrestling helm at Granite City, will take his Warriors into the meet, and plenty of action is in store for fans.

Last year, in a triangular meet, Waukegan scored 69 points

while the Warriors were second with 50 points and North Chicago was third with 25 points. Granite City has never defeated Waukegan in a dual match.

On the other hand, Riverview Gardens lost to the Warriors 24-18 last year for Schmitt's 200th career win. Riverview Gardens has never beaten the Warriors in a dual meet.

Both Waukegan and Riverview Gardens have tough, powerful teams, but the Warriors are not to be counted out of the contest.

During his reign as wrestling coach for the Warriors, Schmitt-tutored athletes have not lost a dual match to a St. Louis or downstate Illinois team since 1955. Waukegan is the only team to continually down Granite City in dual matches.

All New Cage Style, Look For GC Quintet

Roxana meets Granite City in the Warriors' own gym tomorrow night, and neither team knows anything about the other. It's the season debut for both squads, and game time is 8:30.

The Warriors will have everything new—new coach, new court, floor and new uniforms.

But, according to new coach Ralph Sackett, the newness had better wear off with a victory. "We're ready, physically. Some days we look real hot, and then other days we look really cold," he said.

During practice last week, Sackett had narrowed his potential starting lineup down to eight players. As tip-off time draws near, he has it down to six.

"At center we'll start Terry Moore (6'4"), Jim Suart (5'11") will be at one guard spot with Larry Ripka (5'11") at the other. At forwards, Jim Hentzel (6'0") will get the left forward position, while the right side is still a battle between Bill O'Neill (6'1"), Elmer Wortham (6'1"), Sackett said.

3 Lettermen in Lineup This starting lineup, whether O'Neill or Wortham starts at the one forward post, will give the Granite City cage team three returning lettermen in Moore, Ripka, Moore, O'Neill or Wortham.

The new head cage mentor went on to say that he hasn't the slightest idea what Roxana has for a team. "We haven't had a chance to scout them this year, it's the season opener for both teams," he pointed out.

The Warriors won their game against the Shells last year by a score of 56-53.

New coach, new uniforms, and new floor, plus a new style of Warrior basketball—all making debut tomorrow night. GCHS fans are hoping for consistent winning and that its newness won't wear off—at least not for a long time.

Brown Receives Park Appreciation Award

Harold Brown, superintendent of parks and recreation for the Granite City park district, wept as he was awarded the park district's 1965 Appreciation Award at the district's annual banquet Wednesday night. Taken completely by surprise, Brown accepted the silver cup, designated for the person in the community who has done the most for the park district and its programs.

The dinner, attended by over 550 persons, featured guest speakers and trophy presentations to winning teams and individuals during park district competition in the past year.

Red Schoendienst, manager of the St. Louis baseball Cardinals, Dal Maxwell, Granite City resident who plays shortstop and second base for the National League baseball team, Ken Gray, honorary citizen of Granite City and offensive team captain for the "Big Red," and place kicking specialist Jim Bakken, also of the football Cardinals, highlighted the program as guest speakers.

Gray, who has been active in park district sports during the past several years, told the young athletes attending the dinner, "It's not enough to be a good winner, you have to take defeat seriously, so that you can improve the next time."

And this is good, because I know that the next time I have to try harder and play better," he said.

Recreation Center Election Nicholas Brink, chairman of the Citizens Committee for Park Improvements, presented an artist's drawing of the proposed Wilson Park ice skating rink and recreation center and noted that a special election will be held on the project Dec. 18.

"Take your friends and neighbors along with you to the polls, to vote for the rink and recreation center," he said. "I am sure you will agree that this modern facility will become one of the major activity points during both the winter and summer months in our community," Brink commented.

Immediately after the dinner and the talks, youngsters stormed the main table for autographs of the professional athletes. The banquet, the sixth of its kind, was held in the high school cafeteria.

Dinner Dec. 4 to Honor Volunteer Park Coaches

A local businessman, who believes this community owes a "great debt" to the 250 volunteer coaches and managers of the Granite City Park District youth leagues, will pick up the check for a recognition dinner in their honor. It will be held Saturday evening, Dec. 4, at the Community Center.

Featured speaker will be Ron Hunt, second baseman on the New York Mets major league baseball team.

The dinner offer, unprecedented in the history of the park district, was explained this way by the businessman, who prefers to remain anonymous:

"I drive past Wilson Park frequently and I have observed the dedication of these men. They are doing something really worthwhile; they must spend many hours during the year to youngsters.

"Though I no longer have a son young enough for any of the teams, I appreciate what they are doing—and I'm sure the rest of the community does, too."

"One day, as I drove along the park, it seemed to me that someone ought to let these men know in a tangible way that their services are appreciated, that in building healthy bodies and minds they are preventing juvenile delinquency."

"I decided this someone might as well be me."

Valuable Member of Team Hunt, the most valuable player for the Mets in the seasons he has been with them, was runner-up for Rookie of the Year honors in 1963.

A product of Ritenour high school in Missouri, Hunt first signed a contract with the Milwaukee Braves in 1959.

He and his wife and their daughter live in Overland, Mo.

Flyers Edge Maroons 14-13 In T-Day Game

The battle of the brains proved to be a battle indeed as the East St. Louis Flyers came from behind and edged Belleville's Maroons 14-13 in their annual Thanksgiving Day classic, deciding the Southwest Conference grid championship. Both had been unbeaten in league games.

The Maroons held a 13-0 half-time lead, but the Flyers came back with seven points each in the third and fourth quarters.

A punt late in the fourth quarter was downed on the Belleville two-yard line and, three plays later, quarterback Dave Wheeler dropped the pigskin on a miscue. The Flyers' Skyles bounced on it on the four. Tom Bayless cracked across on the next play and Steve Rohr kicked a perfect extra point with only 4:13 remaining for the 14-13 advantage.

Belleville showed defensive strength, holding East St. Louis to a minus 17 yards rushing in the second half and keeping the Flyers scoreless during the first and second periods of play.

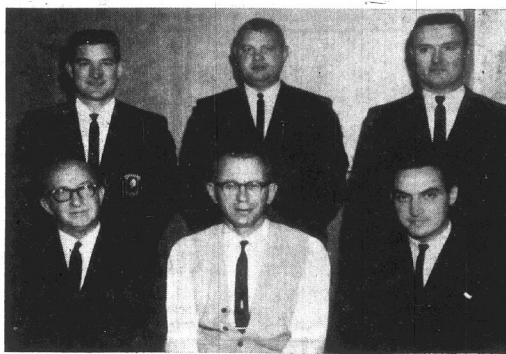

The Maroons moved the ball 43 yards on six plays before Clyde Kuehn scored in the first quarter. A Maroon interception set up the score.

With 30 seconds remaining in the first half of play, Kuehn jumped 52 yards over right guard and gave the Maroons another six points. After an off-side penalty, Rick Sterling's extra point attempt was just wide to the left. Sterling had kicked the extra point for the first Belleville touchdown.

The Flyers retaliated with a 68-yard touchdown play on a pass from signal-caller Forry Wells to end James Franks. Rohr's kick made it 13-7 with 7:40 left in the third quarter.

The winning touchdown was scored by Bayless. Belleville coach Bob Frala said the play on which the fumble occurred was "the simplest play we could've run. All we had to do was waste it and then punt out of the hole."

If the Maroons had punted, the Flyers would have been forced to activate their faltering offense, and the Maroons might have pulled off the upset of the year. Victory was close and yet so far away in the closing moments.

SIX MIDWESTERN CONFERENCE head football coaches are shown at a Press-Record dinner last week announcing the eighth annual all-Midwestern football team. The coaches are left to right, seated, Don Brubaker, Dupo, Frank Prchal, Highland, and Ed Hartweg, Bethalto. Standing, Pete Truran, Cahokia, Glen Pickering, Madison, and Mo Tschannen, Roxana. A similar dinner for the Southwest Conference will take place tomorrow night.

tough. We don't have a sleeper on our schedule. Highland will be the toughest in the conference."

To the surprise of no one, except newcomers to the Madison basketball scene, McClanahan's crew will use its usual full-court press in hopes of limiting the scoring potential of opponents.

On offense, the Trojans will probably play a 1-2-2 style. The 1-2-2 has one player, a guard, handling the ball, with two men under the basket and two playing near the free throw line. This style of offense is especially effective for teams that lack good size.

"We'll try to work the ball in to where someone is open and has a good shot," McClanahan said. "We've never really had a big boy who could play the post position, so we'll have to play a control ballgame."

Defense Needs Work

"Defensively, we need work. As for a starting lineup, well, that too needs work," he said indicating that there will be some juggling around of players in order to come up with an effective punch.

The Trojans have five football players out for the cage team. They are Lusk, Burt, Alton Rendell, Neil Podoba and Steve Geroff. Lusk and Rendell are seniors and the others are juniors.

"It takes awhile to get the football out of them and the basketball into them," McClanahan said.

But while the Trojans lack height, they hope to be tough, especially in their season opener tomorrow night.

Overton Wins Scoring Title

Belleville's Clyde Kuehn has missed repeating as the area's top scorer by a mere seven points. As a result, Cahokia's Larry Overton won the scoring title with a season total of 78 points—12 touchdowns.

During the season, Kuehn had been held scoreless three weeks in a row due to injuries. He had 72 points for the season.

Ron Lane of East St. Louis and Charles Tienan, quarterback for Cahokia, were third and fourth with 66 and 61 points respectively. Don Yarn of Highland and Don Gilmer of Cahokia were tied for fifth with 60 points each.

Rounding out the top ten scorers were Highland's Craig Munawaring (58), Steve Rohr, East St. Louis (57), Jim Dvorchak of Wood River (54) and Ron Waltz of Bethalto (54).

Granite City's Gary Johnson, hampered throughout the season with injuries, was 13th with 37 points.

Another Meeting Tonight on One-Way Sts.

Another meeting on the traffic engineers' proposed one-way street system in the core area of Granite City is scheduled for 8 o'clock this evening at the city hall.

The council last week ordered engineer George Crawford of Springfield to give a more detailed outline of his overall traffic pattern for the city to determine how the one-way street system will fill the city's need.

Crawford was permitted to present only brief defense of the system at last Monday night's council session.

Members of the citizens' Traffic Study Commission, headed by Dale Arnette, are expected also to be present this evening.

Special invitation was extended to the aldermen of the wards involved—Whitmer and Bartosak of the Second Ward, Boyd and Poulos of the Third, Rutledge and Green of the Fourth and Sternberg and Robertson of the Seventh.

Mayor Partney last week asked the traffic expert to prepare plans for each alderman showing the complete revision being planned for the city. This would include traffic control changes, including additional traffic signals; no-parking or restricted parking zones; the one-way streets and any other changes contemplated.

During last week's council session, the engineer stressed the

Granite City PRESS-RECORD Page 8 Mon., Nov. 29, 1965

need to balance the city's one-way system which now provides three northbound one-way streets and only one southbound street.

By reversing Benton street, it would be designed as a major southbound thoroughfare to handle the morning flow of traffic and eliminate a morning left-turn bottleneck at 27th and Benton streets.

One-Way Pattern The reversal of Benton from northbound to southbound would require reversing Cleveland blvd. and also Grand avenue from one-way system.

northbound to southbound in order to have a proper alternate pattern. Edison avenue would remain one-way northbound and Delmar avenue and State street would continue two-way.

The plan also calls for all one-way streets to be extended to 27th street on two occasions Thursday night and Friday, Albert Young, city humane officer reported.

Between 10 a.m. and 2 p.m. Friday, four or five dogs were turned loose, desk drawers were ransacked and a lock on one of the pens was hammered but not opened. During the night, the shelter was ransacked and a about the driveway. Entry probably was gained by climbing over a high steel cyclone fence, he said.

Madison Meet Set On Jaycee Organization

A meeting of Madison men interested in the organization of a chapter of the Junior Chamber of Commerce will be held Wednesday at 7:30 p.m. in the Sportsman's Club. Organization of the Madison group is being sponsored by the Edwardsville Jaycee organization.

Rink, Center Impresses Expert on Recreation

Dr. William H. Ridinger, associate professor of recreation and outdoor education at Southern Illinois University's Carbondale campus, told the Press-Record last week that members of his staff who have seen plans of the proposed Granite City ice rink pavilion and recreational center have voiced considerable approval of the project.

He added, "We believe the ice rink center to be very well planned and an excellent all-around facility which will enhance community life in Granite City."

The educator also announced that Granite City Park Supt. Harold Brown will participate Dec. 6, in an all-day seminar at the SIU Carbondale campus. He said that Brown was selected due to his fine work in the local area and his favorable reception by students in other instructional programs.

Brown will join a panel composed of James Petersen, superintendent of the Evansville, Ind., parks recreational program, and his assistant and park athletic director, Albert Lee, also of Evansville.

Problems connected with budgets, bond issues, administration and other park district transactions will be explored in the afternoon session. The same evening, a graduate student program will be held, with the trio of park officials presenting practical problems which students must answer to the satisfaction of the visiting instructors.

Dr. Ridinger added that the invitation to Supt. Brown was issued by Dr. Elmer Clark, dean of the College of Education, at Carbondale, and Dr. Loren Taylor, department chairman of recreation and outdoor education.

Depot Honors GC Man for 30-Year Service

HAROLD L. FOUTS (right) receiving a 30-year service pin and certificate from Col. Charles B. Schweizer, commander of the Granite City Army Depot.

Col. Charles B. Schweizer, commanding officer of the Granite City Army Depot, presented 30 employees of the Depot with Army Service Emblems and Certificates this past week—one thirty-year emblem, and 19 ten-year emblems.

Harold L. Fouts of 1601 Second street, Madison, recipient of the 30-year emblem began his government career as a member of the Armed Forces in January 1934. After his discharge in 1944 and a year with private industry, he began employment at the Depot in August 1945 as a Patrolman in the Security Branch.

Fouts served with the station Supply Division from June 1946, during which time he occupied various positions and was commended several times for his fine performance. He is now employed as a sales store worker leader in the Commissary Division.

A special certificate for service was presented to Miss Arbella Watkins of 808 1/2 Jackson street, Madison. A letter had been presented to her by Col. Schweizer in July 1965 for completion of 22 years of service. She started work in the Officers' Open Mess at the Depot in 1943 and has remained in that same location since.

Weekly Inspections Start at County Jail

A system of weekly inspections of the Madison county jail was instituted at Edwardsville last week by Sheriff Barney Fraundorf, who said the inspections will be made by members of the processing department of the sheriff's reports and inspections division.

According to Fraundorf the system will be temporary until the Illinois Department of Public Safety spells out detailed standards for the physical condition of jails and prisoner treatment.

Under a new law adopted by the General Assembly, the Department of Public Safety has the power to establish minimum standards of physical treatment and prisoner treatment for county jails as well as municipal institutions. The law gives the state department the power to insure compliance with these standards.

Sheriff Fraundorf said he has been unable this far to obtain a copy of rules and regulations established by the department. He said he has established his own inspection system until the state department adopts its official set of standards.

County Budget Work Delayed by a Week

Due to difficulties in completing departmental budget figures, Madison county's new 1968 budget and appropriation will not be disclosed for at least another week, according to Leslie Prehn, Wood River, chairman of the committee.

Detailed causes as to what is bogging down the committee were not given but Prehn said the committee is experiencing more difficulty in preparing the budget this year than it ever has experienced before.

The committee was scheduled to complete the budget last week. Principal problem confronting the county—and one becoming more acute year after year, is that expenses are outstripping income.

The two-cent increase in the general fund will be insufficient to meet added expenses. In addition, 1968 is an election year which adds considerably to the county's financial burden.

'Christmas Star' Deadline Friday

Local civic or veteran organizations planning to participate in "Operation-Christmas Star," a special project arranged by the Air Force and Defense Department officials to airlift holiday gifts to U.S. servicemen in Vietnam, are being reminded that packages must be delivered between 8 a.m. and 4 p.m., any day through Friday, to Building 2001, Scott Air Force Base, Belleville.

Packages conforming to parcel post requirements in terms of contents, packaging, size and weight, will be accepted from recognized groups.

Organizations are requested to consolidate individual packages in units—containers which can be easily handled for air shipment. Each unit should be marked with the name and city of the donating club; the code name "Christmas Star," and a label identifying contents.

Air Force Reserve and Air National Guard aircraft will transport the gifts to Vietnam, where they will be sent to field commanders for general distribution to their men. Additional information on the project may be obtained by calling the Office of Information, Scott AFB, at Alpine 6-4206.

In addition to the 25 persons referred to court, one was referred to the Granite City Mental Health division, another was released to the sheriff's office and two were released on \$300 cash bail pending trials. One worked out a fine and two others were released to Madison Police.

Jaycees Will Aid Hospital With Bowling Sweepstakes

Granite City Jaycees will sponsor their sixth annual "Bowling Sweepstakes," the week of Dec. 6-10, at three local bowling lanes, it is announced today by Dan McGee, Jaycee project chairman.

Proceeds will be used towards several community welfare projects, including purchase of an infant resuscitator for St. Elizabeth Hospital.

Cash prizes will be awarded in both the men's and women's division. Winners will be determined on a handicap of 70% of the difference between 210 and the bowler's actual average. Scores bowled in regular league competition during the five nights will be used.

Estimated prize money in each division, for first place, \$100; second place, \$50; third, \$25; high scratch single, \$12.50; and high scratch three, \$12.50. Actual prizes will be based on the number of entrants in each division.

McGee said. However, he added, the prize money listed is estimated from the 1964 sweepstakes project which attracted 400 men and 400 women competitors.

Local Jaycees will start this evening to register sweepstakes participants, McGee said. A \$1 entrant's fee is contributed by each bowler. League members bowling at Tri-Mor, Bowland and Madison Bowl are eligible to compete.

Turkey Gets Even With Local Hostess

A local Thanksgiving Day hostess hobbled her way through dinner for her family and about six guests and was slightly embarrassed when called upon for an explanation.

She blamed a possible fracture of a great toe on the meal's main course—the turkey. It seems that when she picked up the turkey at the store, it was frozen, and she accidentally dropped the 18-pounder on her foot.

"Case Identification Card." Households of public assistance recipients will receive only one authorization card; non-assistance families will receive one, two or four cards to enable them to purchase stamps monthly, semi-monthly, or weekly. When more than one card is issued for the month, the cards will be numbered in the order in which they are to be used by the household.

The identification card should be signed as soon as it is received; the authorization card is to be signed when Food Stamps are purchased. Both cards show expiration dates, and stamps must be bought before either of the dates expire.

The authorization card also shows the amount of Food Stamps the household head is authorized to purchase.

Procedure at Bank
Both the authorization and identification cards must be presented at the banks when stamps are purchased. The sales person will require the buyer to sign the authorization card, and the signature will be compared to the signature on the identification card.

The authorization card will be retained by the person selling the stamps; the identification card will be returned to the purchaser.

"The purchaser will be permitted to buy only the amount of stamps shown on the authorization card—no more, no less," Gwin said.

The purchaser will be given bonus stamps in addition to the stamps which are bought.

If the certified head of the household is unable to buy stamps, he or she may name a proxy to buy them. The reverse side of the authorization card must be completed to show that the proxy has been authorized to

the case of all other portions of the park system, economy for local taxpayers is being given our full attention.

"It is true that the roof increases the overall cost to \$475,000, but this will enable the center to be of much greater actual use to the public, and will enable it to be self-supporting financially once the initial cost is met. It will cost less than 1% of the present tax bill, and will be paid off in ten years, saving the public more than \$100,000 in interest," the board president explained.

"It will fit in well with its surroundings and will not impair the present beauty and usage of the park," he concluded.

The resolution approved by the board prior to last week's athletic awards dinner sets the voting hours as 6 a.m. to 6 p.m. Saturday, Dec. 18.

Polling places will be 3307 Wabash avenue and 2209 State street, with the center of Nameoki road as the dividing line of the two precincts.

W. W. Lybarger, 53, Found Dead In His Apartment

Woodrow W. Lybarger, 53, was pronounced dead at 7:30 p.m. yesterday by Deputy Coroner Alvin C. Case, who was called by police to 2521 Madison avenue, where Lybarger lived in a one-bedroom apartment. He is presumed to have died about 30 hours earlier, following an apparent hemorrhage, Case said. An inquest is pending. No evidence of foul play was indicated, the deputy coroner said.

Lybarger was found by Miss Emma Sue Rose, a teacher at Webster school and joint owner of the property, when she returned last night from a three-day Thanksgiving holiday trip. Miss Rose told Granite City police that she went to Mr. Lybarger's room to ask him to move his car, so she could park her own vehicle.

The door to the room was closed, but unlocked, she said, and Mr. Lybarger was lying face down alongside his bed. According to Case, he was partially covered as if getting ready to retire.

Alvin Smith, an employee of Borgert, who also resides on the same floor, told police he had not seen Mr. Lybarger for about two days. A third roomer, also had been absent from the city during the holiday weekend, it was learned.

Lybarger was born in Madison and had lived in Granite City for two years. He had been employed as an operating engineer on several outside construction projects. He was a member of the First United Presbyterian Church in Madison.

He is survived by two daughters, Mrs. Robert (Carol) DuHadway of Park Forest, Ill., and Miss Betty Lybarger, a student at Southern Illinois University, Carbondale; two brothers, Charles and George Lybarger, both of Madison; and one sister, Mrs. Clova Taylor, Madison.

Funeral arrangements are given in today's obituary column.

Further negotiations of contract terms for members of the Hodcarriers Union, Local 179, employed at the Granite City Steel Co. were to be held in the afternoon in the company offices.

The meeting was arranged after members of the union decided last week to rally in support of a contract offer submitted by the company, according to Charles Stewart of Edwardsville, business agent of the union.

The Hodcarriers contract covers about 60 employees at the mill and is one of several union agreements being negotiated following completion of a new contract with the United Steelworkers of America which covers the majority of the steel mill employees.

Previously the hodcarriers voted strike authorization for their negotiating committee, and set Nov. 30-Tuesday night—as a deadline for completion of a contract.

Man Buys Beer With Counterfeit \$10 Bill

Madison police are seeking a suspect, about 30 years old who passed a counterfeit \$10 bill in buying a glass of beer at the Greenhall tavern, Eighth street and Washington avenue, at 10:45 p.m. Friday.

The man's clothing included a sport coat and a hat with short brim. He left in a new red auto also occupied by another man.

Believing neither story, Venice police called Madison officials and asked if Lieut. Frank Dutko and the Madison police dog, Sir Kelly, were available. In 15 minutes they were on the scene and, after a smell of Jones' jacket, Sir Kelly began backtracking Jones' escape path behind the Robins' Nest tavern. Officers began a search for Jones and, within a few minutes, he surfaced in a weed patch behind the tavern.

Jones said at first that he had thrown the gun in the river, and then told officers he had thrown it in the sand at the pumping station on Bremen street.

Weapon Located

The dog proceeded to a further point without results and Lieut. Dutko reversed the line of search, sending the dog back over the same path. Again the dog led the officers toward the Dennis residence.

Officers approached, Dennis opened the rear door and handed police the gun which, he said, Jones had given him. He said he had given him the gun and asked him to hide it. Dennis had hidden it under a mattress, but police said he apparently became frightened when he saw police in the vicinity of his home and surrendered the weapon.

Jones was charged with aggravated assault and bond was fixed at \$15,000.

Youngsters' Fingers Slip Dialing Santa

TR 7-8711. That's Santa's phone number in the Quad-Cities area.

It seems that hundreds of kiddies have been misdialing another number in their effort to talk with jolly old St. Nick. As a result, Howard Hilton, a retired sales manager who lives at 2256 Delmar, has been answering the phone, and invariably he's been mistaken for Santa.

"I've answered hundreds of these phone calls. It seems that I just sit down to watch some color television, and the phone rings. Now, I answer the phone by saying ho-ho-ho," he said.

SOCIETY

MR. AND MRS. ROBERT J. MACLAUGHLIN, who were married Saturday at Sacred Heart Catholic Church. The bride is the former Sheila Cook, a daughter of Mr. and Mrs. Claude Cook, 2809 Dale avenue.

Miss Sheila Montez Cook, Robert J. MacLaughlin Wed

Sacred Heart was the scene of the wedding at 11 o'clock Saturday morning of Miss Sheila Montez Cook and Robert J. MacLaughlin.

The bride is a daughter of Mr. and Mrs. Claude Cook, 2809 Dale avenue. Mr. MacLaughlin's parents are Mr. and Mrs. Jesse MacLaughlin of Eau Claire, Wis. The double-ring ceremony was performed by the Rev. A. J. Schwellenbach before the altar decorated with bouquets of white poinsettias. A program of wedding music was provided by Mrs. Norma Mendoza vocalist, accompanied at the organ by Mrs. Margaret Crawshaw.

Mr. Cook gave his daughter in marriage. She wore a gown of white chantilly lace. Floor-length, with a court train, it featured an oval portrait neckline scalloped and outlined with seed pearls and crystals. Long traditional sleeves were set into the bodice. The front of the skirt was full with tiers of lace starting at the knees and topped with a single rose of hand-clipped lace.
